Office Action Summary	Application No. 10/065,748	Applicant(s) MARKS, FRANKLIN J.	
	Examiner Rishi Suthar	Art Unit 2851	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "82" and "89" have both been used to designate the tendon cable illustrated in Fig. 14. It appears that element 82 is the tendon screw and element 89 is the tendon cable from the specification and the other drawings. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 2851

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Walling (US 6,056,450).

Walling teaches in Figures 1a and 1b a camera system comprising a pole (14) having a camera end (12) and an actuator end (22); a camera mount assembly (60 in Fig. 5a) mounted to said camera end of said pole for mounting a camera; and an actuator (22) mounted to said actuator end of said pole to move said camera (via cable 24).

Allowable Subject Matter

4. Claims 2-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: Regarding claims 2-10 and 16-23, the prior art fails to disclose a spring connected from the inside of a pole base to a camera base where the spring stretches when the actuator cable is pulled and recoils when the cable is released. Regarding claims 11-15, the prior art fails to teach a shaft handle which is internal to the actuator pole that is pulled and pushed to move the camera via the actuator cable.
